🎉 Welcome to the Basic Projects!

Hello Maker..!!!

You're in the right place to begin your journey with the **UNO Launchpad Kit by AYNOP**.
This section contains **simple, single-component experiments** that introduce you to the basics of electronics and coding with the Arduino UNO R4 Minima.

Here's what you'll gain:

- Confidence in uploading your first programs ⚡
- Hands-on experience with real components 🔧
- A solid foundation to prepare you for more exciting challenges 🚀

✅ Once you've completed these, you'll be ready to move on to the **Intermediate Projects** — the next level in your learning adventure!

Happy tinkering,
— Team AYNOP
